Please, take the time to access the test material from TDI at tdi-dog.org prior to coming to take the test. The test has changed significantly. Testing is now done in groups of five teams and there are children involved, running across the room.

Testing begins when the handler and dog exit the car.

Dogs must be at least one year old.

Plain buckle collar or regular harness must be worn –
no martingales or no pull harnesses.

Dogs must be tested on a leash six feet in length.

**Bring dog's current vaccination records,
current dog license for owner's home area,
and owner's driver's license.**
